Purchasing

The function of public charter school purchasing is to serve the educational program by providing the necessary supplies, equipment and services. Items commonly used will be standardized and be consistent with educational goals and in the interest of efficiency or economy.

The administrator/principal or designee is appointed by the Board to serve as purchasing agents.

The administrator/principal or designee is authorized to enter into and approve payment on contracts obligating HCCS funds not to exceed \$5,000 for products, materials, supplies, capital outlay and services that are within current budget appropriations.

The director of operations will review all invoices due and payable for the purchase of supplies and services to determine if they are within current budget appropriations. After review, the business manager will direct payment of the just claims against HCCS. The director of operations and business manager are responsible for the accuracy of all bills and vouchers. Invoices for payment of more than \$5,000 that are not within budget appropriations will also be approved by the Board before issuance of payment. An invoice for payment on a contract that is above \$5,000, is already approved and contracted by the Board and is within budget appropriations will not require Board approval.

No obligation may be incurred by any officer or employee of the Board unless that expenditure has been authorized in the budget, by Board action and/or Board policy.

No Board member, officer, employee or agent of HCCS shall use or attempt to use their official position to obtain financial gain or for avoidance of financial detriment for themselves, a relative or a member of their household, or for any business with which the Board member, relative or member of household is associated. Acceptance of any gratuities, financial or otherwise, from any supplier of materials or services to HCCS by any Board member, officer or employee of the public charter school is prohibited.
