Academic Integrity

The Board encourages the development of critical thinking skills in students, to show them the benefits of setting and accomplishing goals and to help the student realize the satisfaction and reward of learning.

Students are expected to put forth their best effort on tests and assignments. Students are expected to demonstrate respect toward their instructors and peers by encouraging and facilitating learning. Engaging in various forms of cheating or academic dishonesty does not permit students to realize the full extent of the educational experience or their full academic potential.

Students are encouraged to converse with others and assist other students except when it is inconsistent with testing or assignment instructions. This dialogue or exchange of ideas both inside and outside the classroom helps facilitate learning by everyone. Assisting others is prohibited when it would constitute academic dishonesty.

Violation of this policy may result in discipline as deemed appropriate by the instructor or administration, based on the nature and seriousness of the offense.
